Healthcare spending account (HCSA)

As a member of the *Benefits of Film* Active Health Plan, an allocation may be made annually on **July 1st** to your **HCSA**, determined by the number of hours worked in the **previous year**.

Both the **allocation amount** and **eligibility criteria** are reviewed and confirmed each year by the trustees.

You can spend it on eligible CRA medical and dental expenses not covered under the plan or your provincial health plan. Just remember to use it - because it must be used within two years!

You can use your HCSA to cover any health-related expenses that you could claim for you or your dependents on your tax return.

Submit expenses dated July 1 - June 30 of your current plan year to Canada Life before September 29th of that same year and ask to apply the expense against your HCSA dollars.

Note: how much is deposited to your HCSA each year depends on the plan's financial health.

How your hour bank works

For each hour you work under an IATSE 891 contract, your employer contributes to the plan. At the end of every pay period, your employer reports your hours and sends a payment. An hour is added to your hour bank for every hour's worth of contribution made to the plan by your employer.

You are responsible for making sure your hours are reported accurately. Hours are posted to your hour bank in the following month. You can check your hour bank by logging into your account at www.benefitsoffilm.com or by calling AGA Benefit Solutions or the IATSE Local 891 office.

It "costs" you 140 hours each month to keep your benefits coverage and you can bank up to 1,680 hours (140 hours x 12 months). This allows you to keep you and your family covered for up to 12 months, even if you have no hours coming in.

If you have more than 1,680 hours at any point, the surplus is not added to your hour bank. It does, however, count towards the healthcare spending account; and the 60+ plan.

Did you know? You can "bank" up to 1,680 hours to cover you when you're not working, or working less. If you work more than the 140 hours required for coverage each month, any additional hours remain in your bank up to the bank maximum.

Self-payment (Top up)

If your hour bank falls below 140 hours and you're paying active member union dues, you can "top up" your hour bank to keep your benefits coverage. At least one month before your coverage ends, you receive a "shortage notice" by email (or by Canada Post, if we don't have an email address on file) relaying the number of hours you need, in order to top up your hour bank and the associated cost. You can also check your records and pay the top up by contacting AGA Benefit Solutions directly or logging on to the member portal through www.benefitsoffilm.com.
